

Vincent Bellavance M.Sc.

<  +  > Data scientist

PROFESSIONNAL EXPERIENCE

- Present
|
2026
- **Data scientist**
inSileco  Trois-Pistoles, Canada
 - Working on structuring and operationalizing environmental data, with a focus on spatial modelling and interactive tools to support decision-making
- 2026
|
2023
- **Data scientist**
Biome lab – Université Laval  Québec, Canada
 - Standardized and published historical data collected on the CCGS Amundsen
 - Developed spatial models to assess species vulnerability to stressors.
 - Coastal ecosystem health monitoring using benthic indicators
- 2019
- **Research Professional**
Integrative Ecology Lab - Université de Sherbrooke  Sherbrooke, Canada
 - From January to May and August to December
 - Database management | Data cleaning | Taxonomic validation
- 2018
- **Undergraduate Researcher**
Integrative Ecology Lab - Université de Sherbrooke  Sherbrooke, Canada
 - Modelisation of the effect of the balsam fir on the maple sugar migration in a context of climate change

EDUCATION

- 2025
|
2020
- **M.Sc. in Ecology**
Integrative Ecology Lab - Université de Sherbrooke  Sherbrooke, Canada
 - Aggregate assessment of species distribution changes using the Biodiversity Distribution Index
- 2018
|
2015
- **B.Sc. in Ecology**
Université de Sherbrooke  Sherbrooke, Canada
 - Undergrade research project: Effets de la compétition du sapin baumier sur la migration de l'érable à sucre dans un contexte de changement climatique
- 2018
|
2015
- **Microprogram in Practical Ecology**
Université de Sherbrooke  Sherbrooke, Canada
 - Wildlife and vegetation identification, survey methods and site evaluation

CONTACT

 vincent.bellavance@insileco.io
 [VincentBellavance](https://github.com/VincentBellavance)
 0000-0002-3263-8784

QUANTITATIVE SKILLS

Hierarchical models,
Bayesian statistics,
Spatio-temporal models

PROGRAMMING

Data analysis: R, HPC, bash

Database: PostgreSQL, DuckDB

Automation/reports:
Quarto/R Markdown/Markdown,
LaTeX

Web: HTML/CSS, Javascript,
Shiny App

Reproducibility: Git, GitHub
Actions, Docker

LANGUAGES

French Native
English Full Professional

Made with **pagedown**.

The source code is available at
github.com/VincentBellavance/cv.

Last updated on 2026-05-15.

TEACHING EXPERIENCE

- 2022 • **Teaching assistant**
Université de Sherbrooke
• BIO101 - Biometry
📍 Sherbrooke, Canada
- 2021 • **Shiny workshop**
[Introduction to Shiny Apps](#) - BIOS²
• Workshop instructor
📍 Sherbrooke, Canada
- 2021 • **Introduction to scientific programming**
[BIO109](#) - Département de biologie, Université de Sherbrooke
• Teaching assistant
📍 Sherbrooke, Canada
- 2021 • **Teaching assistant**
Université de Sherbrooke
• BIO109 - Introduction to scientific programming
📍 Sherbrooke, Canada

TRAINING

- 2022 • **Maîtriser les systèmes de Calcul Canada**
Short course - Calcul Quebec - Compute Canada
• How to choose ressources | Analysing jobs | Using job arrays
📍 Sherbrooke, Canada
- 2022 • **Biodiversity Modelling Summer School**
Université de Sherbrooke
• Business intelligence principles | User characterization | Data model | Communication strategy
📍 Orford, Canada
- 2021 • **BIOS² Internship**
Observatoire d'oiseaux de Tadoussac - Explos-Nature
• Design a database to inject data on boreal owls banding
• Make a R package to communicate with the database
📍 Grandes-Bergeronnes, Canada
- 2021 • **Building R Packages**
Workshop - BIOS²
• Functions | Writing tests and documentation | Share package on github
📍 Sherbrooke, Canada
- 2021 • **Training in Spatial Statistics**
Workshop - BIOS²
• Point pattern analysis | Spatial correlation | Geostatistical models | Analysis of areal data
📍 Sherbrooke, Canada
- 2021 • **Biodiversity Modelling Summer School**
Université de Sherbrooke
• Probabilities | Maximum likelihood | Bayesian modelling | Algorithms and computational methods
📍 Sherbrooke, Canada
- 2021 • **Discussion group on Joint Species Distribution Models**
Université de Sherbrooke
• Based on: [Joint Species Distribution Modelling With Applications in R](#)
📍 Sherbrooke, Canada

- 
- 2020 ● **Making Websites with HUGO**
Workshop - BIOS²  Sherbrooke, Canada
- General introduction to HUGO, a popular open source framework for building websites
- 2020 ● **Data Visualization**
Workshop - BIOS²  Sherbrooke, Canada
- General principles of visualization and graphic design | Techniques of tailored visualization
- 2020 ● **Science Communication**
Workshop - BIOS²  Sherbrooke, Canada
- Concept and tools that contribute to effective science communication
- 2020 ● **First Steps on Compute Clusters**
Short course - Calcul Quebec - Compute Canada  Sherbrooke, Canada
- How to use supercomputer | Tools to carry out first computations correctly and efficiently
